

ROHAN MISHRA

ASPIRING DATA ANALYST PASSIONATE ABOUT SMART SOLUTIONS

CONTACT

Address: Sec-62, Noida, Uttar Pradesh, India

Phone: +91-93158 17167

Email: rohanmishra023@gmail.com

GitHub:

<https://github.com/RohanMishra3620>

LinkedIn: <https://www.linkedin.com/in/rohan-mishra-757b33265>

Portfolio: <https://rohanmishra3620.github.io/>

SKILLS

- **Languages:** Python
- **Data Analytics:** Pandas, Numpy, EDA
- **Data Visualization:** Matplotlib, Seaborn
- **Machine learning:** Scikit-learn
- **Tools & Technologies:** Git, GitHub, VS Code, Excel, Power BI, SQL

SOFT SKILLS Problem Solving, Communication Creativity, Strategic Thinking

EDUCATION

Bachelor of Computer Applications (BCA) –

Pursuing GGSIPU, Delhi

2024 – 2027

SGPA:

- **Semester 1:** 9.0
- **Semester 2:** 9.6
- **Semester 3:** 9.59

Certificates

DATA Analytics: by DUCAT

DATA Visualization: by TATA

DATA Science & Analytics: by HP
Getting Started with AI by IBM

PROFILE

Motivated BCA student with a strong foundation in Data Analytics and Data Science. Skilled in Python, data visualization, and machine learning basics. Passionate about transforming data into actionable insights and seeking an opportunity to apply analytical skills in real-world projects.

- Experienced in data cleaning, preprocessing, and (EDA)
- Basic understanding of machine learning algorithms and model evaluation
- Hands-on experience in building projects like Mental Health Prediction

PROJECTS

Data Analysis Project

- Performed EDA on dataset using Pandas and Matplotlib
- Created visual insights and trends
- Generated reports for better decision making

Project link:

https://github.com/RohanMishra3620/DataAnalytics_Project

Mental Health Prediction System (ML Project)

- Developed a machine learning model to predict mental health levels
- Performed data cleaning, preprocessing, and feature encoding
- Achieved accurate predictions using classification algorithms
- Built a simple web interface using Flask
