Portfolio: <https://rohanmishra3620.github.io/>

Certificates

DATA Analytics: by DUCAT

DATA Visualization: by TATA

DATA Science & Analytics: by HP

SKILLS

- **Languages:** Python
- **Data Analytics:** Pandas, Numpy, EDA
- **Data Visualization:** Matplotlib, Seaborn
- **Machine learning:** Scikit-learn
- **Tools & Technologies:** Git, GitHub, VS Code, Power BI

EDUCATION

BCA – IITM, New Delhi

- 1st Semester – 9.0 CGPA
- 2nd Semester – 9.6 CGPA
- 3rd Semester – 9.5 CGPA

12th – 72% (CBSE)

10th – 80% (CBSE)

PROFILE

- Motivated BCA student with a strong foundation in Data Analytics and Data Science. Skilled in Python, data visualization, and machine learning basics. Passionate about transforming data into actionable insights and seeking an opportunity to apply analytical skills in real-world projects.
- Experienced in data cleaning, preprocessing, and (EDA)
- Basic understanding of machine learning algorithms and model evaluation
- Hands-on experience in building projects like Mental Health Prediction System

PROJECTS

Data Analysis Project

- Performed EDA on dataset using Pandas and Matplotlib
- Created visual insights and trends
- Generated reports for better decision making
-

Mental Health Prediction System (ML Project)

- Developed a machine learning model to predict mental health levels
- Performed data cleaning, preprocessing, and feature encoding
- Achieved accurate predictions using classification algorithms
- Built a simple web interface using Flask

Tools & Technologies

Python | Pandas | NumPy | Matplotlib | Power BI |
